Motion / Suggestion / Proposal

Detailed explanation:

Although many HH kenim have the same way of understanding and expressing their ideology there are local differences that affect the way activities are run in the kenim. We think that to have common activities like machane with other countries (at least in Europe) might be interesting and more efficient.

Rational and/or source:

Common activities with other countries would make madrichim and also chanichim know people from other countries and cultures. In that way they can feel themselves a part of a big family which can also strengthen their jewish identity. Years and years later they can have a lot of friends all around the world.

Propuesta / Moción: 1.4 (+1.5)

Título: Actividades Continentales.

Propone: Esti Elbirli

Ken: Goztepe

Detalle:

Todos los keanim de Hanoar Hatzioni tenemos las mismas bases ideológicas, aunque hay diferencias en la realidad local de cada ken que afectan sus actividades. Pensamos que tener actividades en común (en especial en Europa), es interesante y efectivo.

Proponemos comenzar desde esta Veida, un proceso de acercamiento más efectivo en la realización de este tipo de actividades (comenzando por un news letter, contacto entre rashei jinuj, etc.). Este proceso nos llevará a una mayor conciencia de responsabilidad entre Keanim de toda la Tnuá Mundial.
